WIREFRAMES · LOW FIDELITY

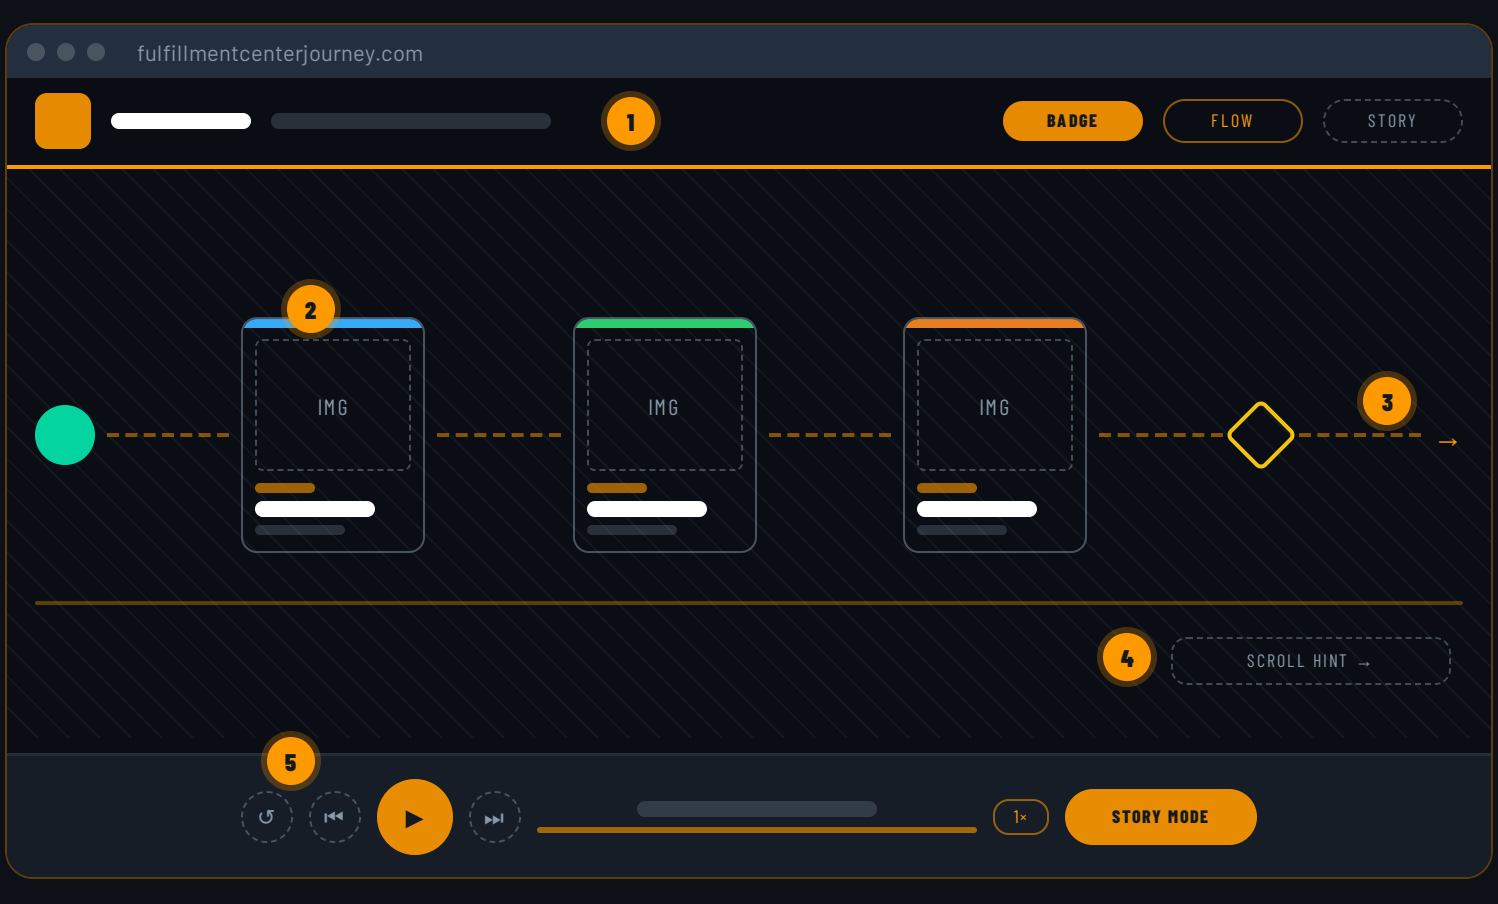

Screen Layouts for the FC Journey

Layout and interaction structure for the four main views. Dashed boxes are content areas, orange marks interactive elements, and numbered markers match the notes beside each screen.

Screens **4** | Breakpoints **Desktop · Mobile (<600px)** | Matches **v2.0 Live**

01 Flow View (Home)

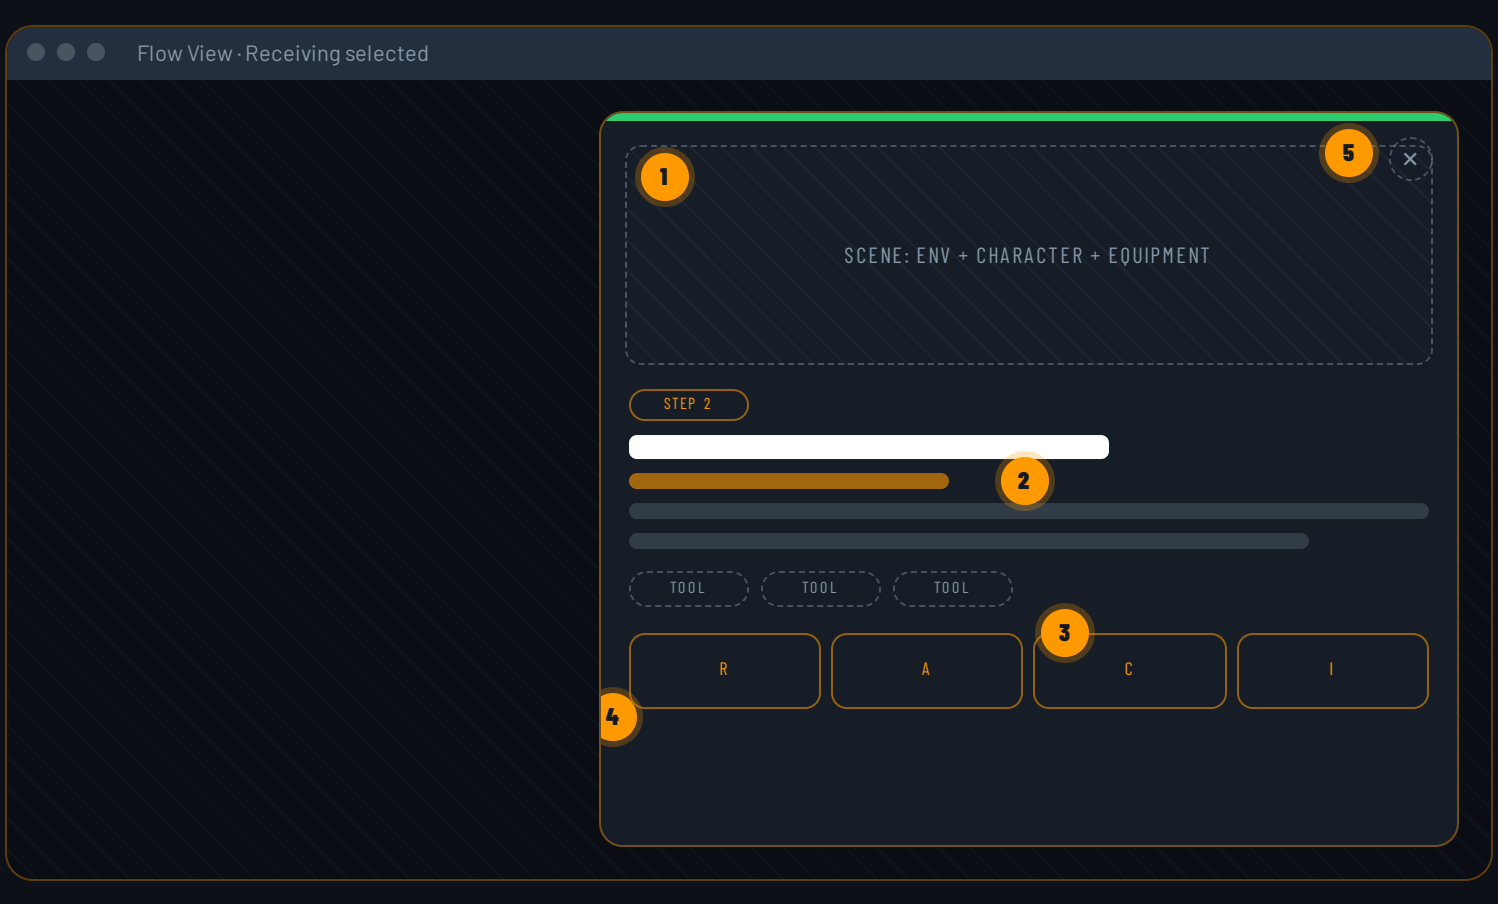

The default landing view: a horizontal BPMN lane you can scroll or drag.

1. **Header:** logo, wordmark, subtitle, Interactive badge, and Flow/Story toggles. Sticky, with an orange bottom rule.
2. **Step card:** color stripe, role illustration, "Step N" label, title and role. Click to open the detail panel.
3. **BPMN elements:** start event (circle), dashed sequence arrows, decision gateways (diamonds), end event.
4. **Floor + hint:** a lane line under the cards with step labels; "Scroll →" hint on first load.
5. **Playbar:** restart, prev, play/pause, next, progress label and bar, speed toggle, Story Mode button.

02 Step Detail Panel

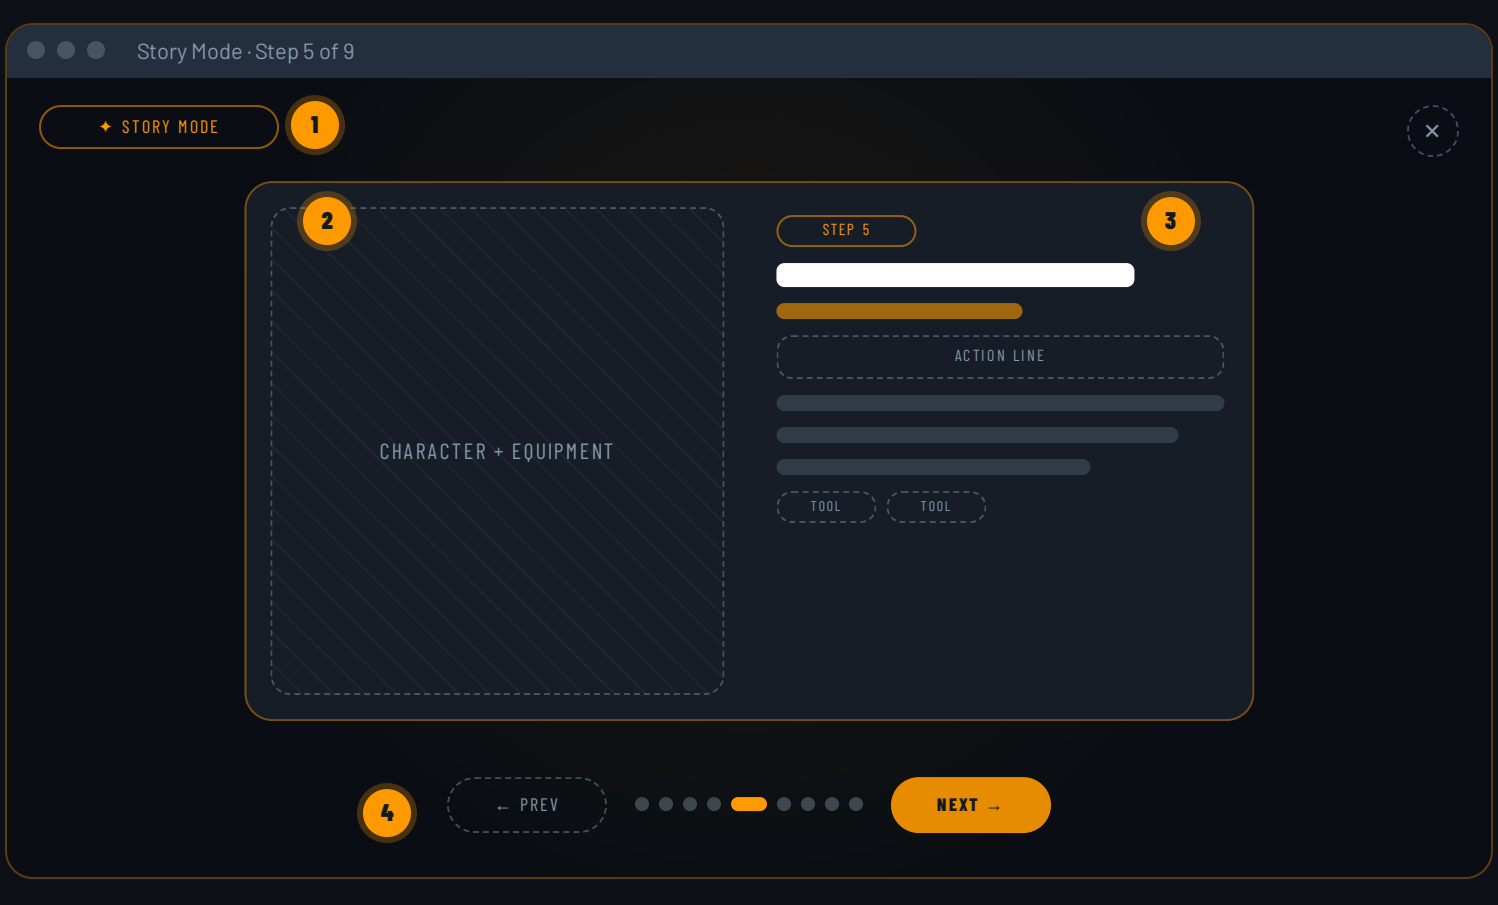

Opens when a step card is clicked. The flow stays visible but dimmed behind it.

1. **Scene header:** layered environment, role character and equipment art for the step.
2. **Info block:** step tag, title, role, and a 1–2 sentence description.
3. **Tools & collaborators:** pill chips that wrap on small screens.
4. **RACI grid:** Responsible, Accountable, Consulted, Informed. Hidden when a step has no RACI data.
5. **Close:** ✕ button, Esc key, or a click outside returns to the flow.

03 Story Mode

A full-screen guided walkthrough, one step at a time.

1. **Overlay chrome:** Story Mode badge and close button over a Three.js background.
2. **Visual half:** the role character with its step equipment and environment.
3. **Narrative half:** step badge, title, role, action line ("Grabbing items guided by pick-to-light"), description and tools.
4. **Navigation:** Prev/Next buttons, progress dots (current step stretched in orange) and arrow keys.

04 Mobile (< 600px)

Same structure in a single column, built for touch.

1. **Compact header:** the subtitle is hidden and Story Mode stays as the main action.
2. **Swipe flow:** one large card in focus, with the next card peeking in from the edge.
3. **Thumb playbar:** pinned to the bottom with large tap targets (44px+).
4. **Bottom sheet:** the detail panel slides up from the bottom; swipe down or tap outside to close.

05 Interaction Flow

Land on Flow View → Scroll / drag lane → Click step card → Detail Panel → Close → ▶ Play / Story Mode → ■ Package Shipped
